

QUIZZES CREATED USING ADOBE CAPTIVATE

Bronwyn Betts, Murray Greenway and John Tripotseris

The first part of the project was to build three quizzes in Adobe Captivate that could be linked to LibGuides, WebCT and the new LMS.

The quizzes:

- Consist of nine multiple choice questions
- Allow students 20 seconds to answer each question
- Score student answers – a correct answer will gain points but an incorrect answer will lose points
- Have been exported in Flash – alternative iPad formats can be produced later
- Are fast and easy to update
- Have not yet been checked for typos etc.

Legislation Quiz

The second part of our project is to use Flipboard (or similar) to enhance our current awareness services for faculty. We plan to continue work on the project over the coming months.
